Work History

Senior Member of the Technical Staff

Spiff / Salesforce

Aug. 2021 - Present

- Architected and deployed a highly scalable, enterprise-wide string translation infrastructure, expanding global platform accessibility.
- Engineered custom automated tooling scripts to enforce repository cleanliness, systematically driving down technical debt.
- Advanced corporate engineering quality standards by establishing strict ESLint rule sets, expanding automated Unit Testing, and driving TypeScript adoption.

Senior Software Engineer

XANT / Inside Sales

Dec. 2020 - Aug. 2021

- Authored and institutionalized comprehensive frontend architectural standards and documentation for the engineering organization.
- Mentored mid-level and junior developers through strategic pair-programming sessions, accelerating velocity and feature shipping.
- Upgraded legacy core technologies and modernized syntax paradigms to optimize runtime performance.

Web Developer

Chatbooks

Mar. 2019 - Aug. 2020

- Engineered customer-facing components and core features for high-traffic Books and Cards product lines.
- Executed a flawless, progressive migration from legacy AngularJS to ReactJS with zero downtime, preserving production stability.
- Leveraged Node.js Server-Side Rendering (SSR) to accelerate page load times and elevate SEO organic search metrics.

Front-End Developer

Overstock

Sep. 2015 - Mar. 2019

- Managed the front-end for all User Generated Content, including reviews, product images, and Q&A.
- Enhanced customer review functionality across high-traffic retail pages.

Full Stack Developer

Roomchoice

Dec. 2014 - Aug. 2015

- Developed full-stack features for student-housing software using AngularJS and Python/Django, optimizing queries and reporting.

Custom Developer

Enspark

Nov. 2011 - Dec. 2014

- Built custom web apps, enhancing a Learning Management System (LMS) with user tracking, and engineering eLearning courses in Adobe Flash (AS3).

14+ Years of Experience
